#### Installation

Can be installed and operated in any orientation except permanently inverted. Handles Batteries must not be suspended by their handles (where fitted). Vent valves Each cell is fitted with a low pressure release valve to allow

Each cell is fitted with a low pressure release valve to allow gasses to escape and then reseal.

## Gas release

VRLA batteries release hydrogen gas which can form explosive mixtures in the air. Do not place inside a sealed container.

### Recycling

YUASA's VRLA batteries must be recycled at the end of life in accordance with local and national laws and regulations.
